

WEST.

The Sioux Indians are playing havoc near Fort Fetterman, Wyoming territory.

Harvesting has commenced in most parts of California. The yield of grain will be enormous.

Only four hours work a day, and only ten cents per cent for that, is the labor problem which is agitating the workmen in the Pittsburg and Fort Wayne railroad shops at Fort Wayne.

Lient. Col. Davidson, commanding at Fort Sill, reports an attack by Indians on the night of June 26, and says: "Not I have been actively engaged in the Indians, under certain restrictions, for acts of aggression. I trust not to annoy the general with the details, but to be enabled to show some results."

Gov. Davis, of Minnesota, issued a circular to the grain dealers, appealing for aid for the relief of the emigrants. He also continues and parts of others which "have been sent by grain-senders of all crops as if it fit." Women and children are suffering for food. The implements and stock of the settlers are under mortgages given to tide over the privations of last year."

EAST.

A collapse of the cotton aqueduct in the upper part of New York city is feared.

The tax levy for the city of New York for the ensuing year has been fixed at \$31,823,391.

Prudential companies in Massachusetts, 100 important having refused to pay the house bill over the question.

The Standard Mills, in Worcester, R. I., running 50,000 spindles and 10,000 looms on cotton goods, was destroyed by fire last week.

Miss Katie West, of Paris, Ky., died recently from an overdose of arsenic; taken, it is supposed, for the purpose of improving her complexion.

At Memphis on the 1st, W. D. S. Welsh, the well-known attorney and candidate for the criminal court, was shot by his brother, also an attorney, and probably fatally wounded.

Dr. Robinson, aged fifty-five, was shot and killed by a young man named Robt. at Skepper's landing, a hundred miles above Vicksburg, a few days since, for alleged insults.

Mr. French was shot and killed on Friday at Cottrell's Landing, in Washington county, Miss., by Ed. Moush, his partner, in a quarrel over the winding up of their business. Moush was acquitted on the ground of self defense.

A very destructive fire occurred in Atlanta, Ga., on Saturday, killing a half of buildings, principally dwellings, on the west side of Federal street, between Sampson street and Marquette alley, extending to Arch street, and three or four buildings on the east side. Federal street, were totally destroyed. Over one hundred houses in all were destroyed, leaving many families homeless.

SOUTH.

A dispatch from Hot Springs, Ark., says Duke's, a well known river barkeeper, was shot and mortally wounded on Sunday by Capt. Bill Force.

Bonaventure, the horse which won the "Ladies' Stake," \$4,000, at the meet at Jerome Park, New York, is owned by Capt. Win. Crittall of Mobile.

A man was arrested in Winchester, Ky., on Sunday, for poisoning three children of Mr. Echol, who lives near that place. Two of the children have died. The girl said she had nothing against the family and the other children who died suddenly a year ago in the family, in Clark county, where the negro was working, are supposed to have been poisoned by her.

At Memphis, Chancellor Walker, in the case of Venable against the Padien and Memphis railroad for damages, has decided that the suit should be dismissed, as the Padien and Memphis railroad is known to the law, the authority which was given to the railroad was granted, and the case was dismissed.

The president has appointed Jackson E. Siskins, of Louisville, to the Board of commissioners to investigate and report a permanent plan for the reclamation for the silted basin of the Mississippi river subject to flooding.

The Washington Chronicle, in an editor upon the removal of Gen. Sherman's headquarters to St. Louis, says: "We have the best reason to believe that the commandant of the army is cordial and friendly, and that there has been no open rupture." Gen. Sherman's removal is made at this time on account of private and personal masters than on account of the military truth.

He had any desire to perform a general of the army, he would remain at the capital. His letter to the secretary of war has yet never been answered or its receipt acknowledged.

Admiral Pol DeBorne, the Spanish minister at Washington, has sailed for Spain. It is said the admiral has been elected by the Spanish government to resume his position in the Spanish navy.

President Lincoln has appointed Jackson E. Siskins, of Louisville, to the Board of commissioners to investigate and report a permanent plan for the reclamation for the silted basin of the Mississippi river subject to flooding.

The Washington Daily News of the 30th inst. reports that the treasury department employees were considerably troubled in view of the anticipated reduction of the force. The ladies were particularly disturbed and collected in groups to remonstrate with the Unionists of the treasury vice-Secretary.

Secretary Bristow has ordered that advertisements be made immediately in all the principal cities for proposals for the public service of the postmaster-general in the custody of the government.

POPULAR SCIENCE GLEANINGS.

SAFETY OF ANESTHETICS.—If the force of steam be of any value, it is apparent, beyond question, to be the safest anesthetic. By combining American and British data relating to this question, the result shows conclusively that chloroform always does as much as ether, twice as dangerous as a mixture of chloroform and ether, and, as far as experience goes, it is more dangerous than bichloride of ethylene. The report of the London Select Committee, submitted to investigate this subject, states that not only is ether less dangerous than chloroform, but that "every care, and the most diligent, has been taken to prevent vapor by the most skilful hands, the state of insensibility may pass in a few moments into one of imminent death."

LEAD POISON.—Lead poisoning by means of water-pipes of that metal would result in a quickly fatal disease, we may believe the testimony adduced at a recent discussion of the matter in the French academy of science. It was there stated that only distilled water acts as a preventive of lead-poisoning, while the rest of the specimens preventing the reaction. M. Belgrand read to the academy a memoir giving the results of his investigations into this subject.

The results of Louis Belgrand's experiments, which were made in 1855, show that water pipes in a large scale, but yet no Latin medical writer says anything of lead-poisoning produced by the water. According to M. Belgrand, one-sixth of a grain of lead per day will suffice to prevent the dissolution of the lead. He exhibited to the academy pieces of old pipes which had been in service from the time of Louis Belgrand without showing any sign of corrosion; and an analysis of water that has passed through a long line of lead pipe showed the complete absence of lead.

ONCE A FOON OF MORTAR.—The presence of salt in mortar is common, and exceedingly injurious. Most of our great sand deposits seem to be of marine origin, and consequently contain the remains of triticeous salts that have been found in the waters of the oceans. Of those salt chlorides alone that are to be greatly dreaded. From the fact that chlorine of calcium is very soluble and decomposes so easily, that it can be mixed with mortar, the latter not only fails to harden properly, but the surface becomes so soft that all time cast over with an effort of hand will not restore it to its original state. This gradual transfer of the components of the mortar from the interior of the wall to the exterior produces a porous condition which makes it liable to be easily crushed. Moreover, the effervescence we have mentioned is very mischievous as well as destructive to the damp courses in which the walls are constructed, kept,

SALT IN SPICES.—Dr. Schlesinger remarks: "I am satisfied that I have seen patients die from deprivation of common salt during a protracted illness. It is an important impression that the food for the sick should be well seasoned, and whatever slop may be given is almost innocent of this essential of life. In the milk diet that I recommend in sickness, common salt is used freely, though it is boiled and given hot. And if the patient cannot tolerate it, we may give him a fluid diet. This matter is so important that I have repeated it often, or dwelt upon it, in my practice." The most marked example of this want of common salt I have ever noticed is in open wounds. Without a drop of lime, soda, and other bases, the tongue will become brown and puffy, with a tenacious, pasty coat, the secretions arrested, the circulation feeble, the effusion at the point of injury increased, and the absorption of watery pus, which at last becomes mere sanguine or ichor. A few days of a free allowance of salt would change all this, and the patient get well again."

WASTE OR FUEL.—The disadvantages of salt are two-fold; first, it is insalubrious and causes considerable expense. Many analyses have been made to determine the amount of unutilized gases contained in smoke.

Mrs. M. D. Debevoise's experiments showed a loss of 10 per cent from this cause, but the first of these experiments indicated a loss of 24 per cent. Some experiments made in Alsace gave a loss of 10 per cent; Dr. Ser, a man in Germany, at Thuringia, 40 per cent. These experiments, it should be said, were made with the furnaces of steam boilers. In many departments of manufacture, however, the loss is far greater; and we shall be able to mark it if we take the average under all circumstances at 20 per cent. The loss of heat, however, by the formation of cinders, will be very great, and yet very variable, ranging from 10 to 20 per cent, while the loss by the evaporation of the water contained in the coal and oil used in the generation of steam, the total up to 70 per cent, as the waste of ordinary open furnaces with natural draft. In very many cases even this figure is far exceeded.

CURE OR SLEEPLESSNESS.—Dr. Duckworth, in the British Medical Journal, calls attention to the following phenomena, which, he thinks, are hardly sufficiently recognized or adequately met by the resources of practical medicine. His observations have clearly shown that the brain is continually active during sleep, and that the blood thus removed from the head is more freely given to the viscera and integuments. The most common accompaniment of sleeplessness, is an opposite condition of the brain, and these are probably due to the actual or increased cerebral excitement. A species of nocturnal dyspepsia, called the catarrh, and producing no actual pain, and ring-finger, or cramp-like elevation or depression of the head.

The brain may be persistent insomnia, dryness of the mouth, burning of the soles of the feet, and loss of the power to sleep, and these are probably due to the actual or increased cerebral excitement. A species of nocturnal dyspepsia, called the catarrh, and producing no actual pain, and ring-finger, or cramp-like elevation or depression of the head. The treatment in most of these cases should of course be directed to the removal of the cause, but, when it is not, and necessary to give drugs, bromide of potassium and camphor are probably the best, both having been shown to diminish the amount of blood circulating through the brain.

HUMAN TESTIMONY.—Within a few weeks, says the Boston Traveler, a paper published in Boston, a mortgage on personal property was handed a prominent legal gentleman on the 2d instant, in the Supreme Court, and he was ordered to file it. He saw the person sign the paper, and when his name was attached, as witness in his handwriting, he was closely pressed by the opposing counsel to carefully examine the signature, and when he did so, it appeared that his (the witness') name was written thereon by himself. He examined and replied to him in affirmative. It afterwards appeared, in contradicted evidence, that the paper submitted was a copy of the original mortgage furnished by the

THE OLD FOLKS JOIN THE GRANGE.

I think that we had better go and join the Grange, wife, we are old now and the time to begin is nearly past. There's Deacon Jones' "Squire Flirt," and, I suppose, we'll have to do. Have put their shoulders to the wheel to help the grange.

"I'm old and feeble now, the strength has left my arm,"

That is what I would think to add much to our words, for we live a quiet, and why need wish I wanted help support the cause, and help to swell the throng?"

"I did not," answered the ranchman, sadly; "but he's roundly his lord for the last time. There he is in coffin, coffin last, and I have never seen such a sad sight as he lies there, his eyes closed, and his features pale than have been seen to me."

I like to be a farmer, judge, and, I always am."

A farm for a governor and one for president; I know you think these silly thoughts my poor old man.

He has a little patience, wife, until we join the Grange.

For while we live we've plenty, and why need wish I wanted help support the cause, and help to swell the throng?"

"I did not," answered the ranchman, sadly; "but he's roundly his lord for the last time. There he is in coffin, coffin last, and I have never seen such a sad sight as he lies there, his eyes closed, and his features pale than have been seen to me."

I like to be a farmer, judge, and, I always am."

A farm for a governor and one for president; I know you think these silly thoughts my poor old man.

He has a little patience, wife, until we join the Grange.

For while we live we've plenty, and why need wish I wanted help support the cause, and help to swell the throng?"

"I did not," answered the ranchman, sadly; "but he's roundly his lord for the last time. There he is in coffin, coffin last, and I have never seen such a sad sight as he lies there, his eyes closed, and his features pale than have been seen to me."

I like to be a farmer, judge, and, I always am."

The Olden Newspaper in Western Kentucky

GEORGE WARREN, EDITOR.

SATURDAY, : : JULY 11, 1871

FOR GOVERNOR
HON. WM. LINDSAY.
OF HICKMAN COUNTY.

A horse died in Jessamine county the other day with all the symptoms of hydrocephalus. It bit several other animals on the place before its death, and these are now under close watch.

A difficulty occurred between Col. John Martin, editor of the Palatine *Keyston*, and Mr. Rollston, editor of the Evening *News*, the other day. No blood was spilled but Col. Martin was left \$29 and costs.

FOR BUSINESS.

We learn, authoritatively, that W. K. Hall, the postmaster at Columbus, is being strongly urged to accept the Republican candidate for Congress in this district, but don't jump at the proffered honor. Col. Hall has some experience as a legislator, having served a term or two as Senator in the Brownlow legislature. Whether this experience commends him to his party at this time as a fit candidate, we know not, but we suppose he would command the united Republican vote of the Justice.

The Marfield *Democrat* says: "We are opposed to conventions under any circumstances where they are gotten up for the benefit of any ring or clique." Is it possible and have the Dutch taken Hartland—Colossal Disputed?

The set-back New Yorker thinks the comet's tail will strike the earth about the 26th of July. He says: "What will be the effect upon the earth? I dare not predict the effect upon the minds of men, especially of the ignorant."

Reports from various points in Indiana go to show that the Democratic State convention to be held at Indianapolis on Wednesday, July 15, is, likely, to be the largest political convention ever held in this State. It is believed that the Germans will this year vote with the Democrats.

Hoards are crowding thick upon the classic brow of our annual and beloved friend Tom Neal, of the Dyerburg-Gazette. Mayor of Dyerburg and President of the Tennessee Press Association! We congratulates you, Colonel, as well as Dyerburg and the T. P. A.—*Palace*.

OUR Nominee Not Ineligible.

Mr. Phil. Pointer, Capt. Tom Jones' friend in the alleged dust, still has published a card completely sustaining our nominees' published explanation and exonerating him from all accusation in regard to accepting a civil bribe. Mr. Pointer says he exercised his authority, and positively violated Jones' instruction in arranging an accepting the challenge. There can no longer be any doubt of Jones' eligibility, and the Democrat will therefore rally to his support the more enthusiastically because his enemies sought to persecute him upon a mere technicality.

First—At the time Capt. Jones gave me the note addressed to Mr. W. W. Woodford, designating me as his friend, he distinctly stated to me that he did not accept any agent. Dr. Hale's statement, who was present as Capt. Jones' friend and legal adviser, emphatically declared that in no event could Capt. Jones accept the challenge.

Second—I did not see Capt. Jones again after that first interview until June 1, when he came to my office with Mr. W. W. Woodford referring to the time, place and weapons for a hostile meeting. The agreement was made by me without the authority or knowledge of Capt. Jones, and I was fully aware at the time that this would be a violation of his instructions. The trial will therefore be held at a time and place agreed upon by Capt. Jones and myself.

Third—In a very short time after this, Capt. Jones again came to my office, April 1, and said that he had been informed that Capt. Jones had been shot in the head, and that he had been brought to the hospital.

Fourth—Capt. Jones did not accept Dr. Hale's challenge, nor have I any knowledge of the action of his friends, and so far as I know or believe, had fully withdrawn from the contest.

Fifth—The arrest of Dr. Hale was made on Sunday afternoon, June 1, 1869, and not on the morning of the 7th, when on his way to the place of hostile meeting. Dr. Hale never started to the place of meeting, in my opinion.

Sixth—I did not procure or prepare any arms or engage any persons to assist me in the attack, and, therefore, it is the duty of the Democrats to decide themselves.

Seventh—Capt. Jones did not make any preparation whatever for the meeting; and so far as I know or believe, had fully withdrawn from the contest.

Eighth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Ninth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Tenth—Roman Catholic Bishop of M. was reported yesterday from St. Paul, that the women and children in the sparsely-settled southern counties of Minnesota are now in great danger from the Indians, who are harassing the frontier. At the same time it provides that a voluntary bankrupt can be discharged on the payment of thirty percent. of his indebtedness to pay fifty per cent.

The McKewin *Times* tells us that at a colored school near Huntington, N. Y., Capt. Charlie Moore, colored, one of the greatest lights of the race in that section, made a speech, taking strong ground against the civil rights he had said he did not want mixed schools, but would prefer that each race have its own teachers and schools.

Famine in MINNESOTA.—It was reported yesterday from St. Paul, that the women and children in the sparsely-settled southern counties of Minnesota are now in great danger from the Indians, who are harassing the frontier. At the same time it provides that a voluntary bankrupt can be discharged on the payment of thirty percent. of his indebtedness to pay fifty per cent.

At the same time it provides that a voluntary bankrupt can be discharged on the payment of thirty percent. of his indebtedness to pay fifty per cent.

Eleventh—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Twelfth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Thirteenth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Fourteenth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Fifteenth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Sixteenth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Seventeenth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Eighteenth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Nineteenth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Twentieth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Twenty-first—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Twenty-second—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Twenty-third—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Twenty-fourth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Twenty-fifth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Twenty-sixth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Twenty-seventh—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Twenty-eighth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Twenty-ninth—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Prejudice led him to draw his tobacco, the other man had collided with a woman around the corner, and knocked three of her teeth out, besides breaking his own nose.

Thirtieth—The St. Louis tunnel was completed Friday, and the bridge was christened Saturday. Water for the christening was sent from Boston, San Fran- cisco, Chicago and New Orleans. Among the speakers were Governors Woodson of Missouri, Beveridge of Illinois, and Hendricks of Indiana. The procession was twelve miles long and occupied five hours in passing the stand at the bridge. The display was the finest and the crowd the largest ever seen in St. Louis.

Thirty-first—The practice of keeping tobacco in the hip pocket is a dangerous one, especially when it is carried in a coat pocket, and two men were talking rather excitedly, differing in some trivial matter, when one of the disputants suddenly threw his hand back on his hip. Rice & Bro's.

Salt Lake Letter to the Chicago Inter Ocean?

It is said Brigham Young is now paying his addresses to a young lady in the Seventh ward, with the view of crowning her with a bridal wreath, and a number somewhere in the two tens in the list of wives. He is a most devoted lover at any rate, and dines daily at the shrine of his heart's adoration, the house of his beloved young lady, but I am told she is beautiful in her person and not over three and twenty, while the Prophet is seventy-four, and since the order of Noah, is fast failing in looks, health and strength. It is hoped the Poland bill will prevent the realization of this scheme of Brigham's, and put a quietus upon all future attempts of the Holy Endowment House to celebrate any more of these ecclesiastical marriages.

Council Proceedings.

HICKMAN, Ky., July 6, 1874.

LAND

AND

Personal Property for Sale.

THEIR WILL has just returned from the residence of John A. Sloan, dec'd., in Hickman, Ky., on

SATURDAY, SEPTEMBER 12th, 1874.

the remainder of stock, implements, &c., (withheld at the July sale for the purpose of completing the present crop) and the LAW of the land. John A. Sloan, in his absence, has sent his instructions to Hickman, and on one of our most public roads, in a good neighborhood, and as far west as possible, has placed a notice:

This land will be sold on moderate terms; one-third cash, the balance in one and two years, and paid yearly with interest at 10 per cent., interest from day of sale.

Sale postpaid, unless sold privately. Any one desirous of seeing the land can do so by applying to A. G. Plaut, Esq., the attorney for the undersigned, Hickman, Ky., possession given January 1st, 1875; *judicet id.* H. C. BAILEY, Executor.

To Rent, Lease or Sell!

A SMALL DWELLING HOUSE, in

HICKMAN, Apply to

JOS. SEAGALLA.

VALUABLE LAND FOR SALE.—The editor of the COURIER is authorized to sell, unconditionally, a valuable body of land, near Hickman—adjoining the farm of Joshua Dods, Esq. This land will be sold at a reduced price, and on long time if desired—men being retained on the land for purchase money.

July 1

RICE & BRO.

Wheat! Wheat! Wheat!

We have received orders for several car loads of Wheat, and farmers would do well to call on us before selling.

July 1

RICE & CO.

The first of the week the thermometer stood at 100.

Fourteen accessions to the Methodist Church Sunday.

The grateful rain of Wednesday and since gladdened the hearts of our farmers. All are cheerful and hopeful now.

PREACHING.—J. H. Roulhac, by permission will preach at the German Church, Hickman, Ky., on Sunday the 19th inst. (3rd Lord day in July) at 10 o'clock, Mr. A. M., and 7 o'clock, P. M.

A beautiful meteor shot through the sky, illuminating the whole of Hickman, Tuesday night. When it exploded brilliant scintillations in apparent variegated colors were thrown off. Some assert it could not have been three miles distant, but the fact is, newspapers report the same for hundreds of miles around should disprove their idea.

The friends of the Local Option law are making appointments for public speaking in different parts of the country. Dr. Wm. B. Benny, the 22d, Fulton the 23d, and at Hickman, the 24th. Mr. A. D. Kingman, the author of the Special Option law, and other speakers, are also announced. Col. J. H. Hickman, the Grand Worthy Chief Temple of the World, lectured in Hickman, Sunday night to a large audience.

Some weeks back a number of persons were in the town of Hickman, in Henderson county, by some agents who had been to the bread-making process.

One of the agents, Mr. J. H. Plaut, the baker who made the bread has since been obliged to leave the town for want of custom, and the local paper wonders how the druggist who furnished the poison compound put in the cake is flourishing.

For Ease and Comfort

SEE A pair of those new ARMY SHOES. Another in just received.

J. H. PLAUT & BRO.

The colored citizens of Hickman, including a number of visitors from the country around for many miles round, celebrated the 4th of July, by grand picnic, procession, speeches, etc. A steam boat excursion party from Cairo, and a large party via the railroad, joined in the festivities of the day. Each procession was led by drum and fife. The attendance was large, good dinner and general good behavior. Judge Kingman is the orator of the day, together with speakers from other cities.

Save the Wheat Straw.

The suggestion of the agricultural editor of the Springfield Record, to save the wheat straw as a substitute for hay, is a good one. Straw this season is free from rust and clean and bright, and will serve to winter cattle. If we have them to hand a good deal, we will be provided with more confidence by the public, but for the thought that the overwhelming democratic majority before he did these sudden declarations, Judge Marshall had cooperated with the Republican party should have done what he did.

Judge Kingman is a regular old fashioned citizen, and has a good record.

He has a good record, and is fair to his constituents.

In the beginning of the year he took the stand, giving his opinion of the character and qualifications of the man whom the people should elect to the high and responsible position of Circuit Judge. He must admit that perhaps himself, and all his competitors, would fall short of the picture usually drawn; yet, it would not be expected of him to present any one claim but his own. His competitors were all honorable and worthy gentlemen. He (Bullitt) had been a close student and practitioner of the law for the past 23 years, except an interval of four years service during the war. He was as anxious as Judge Marshall to bury the issues of the fraternal strife, which, after all, were the cause of the civil war, and to secure the peace and happiness of the nation.

Because the new law deprives the town of Hickman of its right to elect a Circuit Judge, it is necessary for him to do these sudden declarations.

Judge Kingman is the orator of the day, together with speakers from other cities.

Keep the Wheat Straw.

The suggestion of the agricultural editor of the Springfield Record, to save the wheat straw as a substitute for hay, is a good one. Straw this season is free from rust and clean and bright, and will serve to winter cattle. If we have them to hand a good deal, we will be provided with more confidence by the public, but for the thought that the overwhelming democratic majority before he did these sudden declarations, Judge Marshall had cooperated with the Republican party should have done what he did.
